He is a formidable lawyer and cross-border strategist." (Benchmark Litigation Asia-Pacific 2023)

Shaun is actively involved in artificial intelligence matters. He was recently successful in representing a prominent digital assets company in a USD 36 million dispute involving novel and complex issues around legal liability arising from purported errors made by trading systems powered by artificial intelligence models and algorithms. He also advised a leading global A.I. powerhouse on cross border disputes and acted as its relationship Partner for projects in Asia and the Middle East. He regularly engages in involved considerations around A.I. matters and hosted seminars on topics such as "*Don't Sue Me, Sue The Robot!*": Arbitrating Artificial Intelligence Liability Disputes" and "*Crisis management in the age of artificial intelligence*". He recently advocated against pausing the development of A.I. in his article [here](#) which is published by the Singapore Business Times, and was invited by the SIAC in the SIAC Symposium and KCAB in South Korea's ADR Festival to speak on A.I. disputes.

His experiences in digital assets, blockchain and "Web 3.0" related disputes include:

- Shaun recently became the first lawyer in the world to successfully obtain a worldwide proprietary injunction to freeze a non-fungible token on the blockchain in a commercial dispute.
- Shaun represented investors in all three major collapses in the 2023 crypto winter, in particular the Terraform Luna involving the collapse of one of the world's largest algorithmic stablecoins, the collapse of Three Arrows Capital and the world's second largest crypto exchange, FTX.
- Shaun sat as arbitrator in a landmark dispute involving the characterisation of digital assets as property and complex issues around the international enforceability of an arbitral award against digital assets.
- Shaun successfully represented a prominent cryptocurrency exchange in an SIAC international arbitration in a dispute arising from a joint investment where incentive milestone payments were paid in a digital token. The dispute involves complex considerations around the proper valuation of and enforcement against cryptocurrencies.
- Shaun successfully represented a global cryptocurrency exchange in a dispute which involves complex considerations around the obligations of an exchange in being an innocent third party to the movement of digital assets arising from alleged fraudulent activities.
- Shaun advised a cryptocurrency exchange on cross border strategies in an international arbitration over cryptocurrency-based structured financial products.
- Shaun regularly helps clients develop and deploy effective cross border strategies when disputes arise relating to cryptocurrencies and/or NFTs, representing clients in international arbitrations including enforcement work across a myriad of jurisdictions, and advising clients on investments in digital assets.

Upon graduating with First Class Honours from the National University of Singapore, Shaun served in a judicial capacity as a Magistrate and Assistant Registrar of the Supreme Court for five years, where he published several notable written judgments on international arbitration law. The decisions include *Firstlink Investments v GT Payment* on the applicable law governing an arbitration agreement as endorsed by the English Court of Appeal, and *Titan Unity*, endorsed by the Singapore Court of Appeal, on the threshold to determine the existence of a valid arbitration agreement. He was the Head of the Court of Appeal Section of the Supreme Court Registry, and was involved in the establishment of the Singapore International Commercial Court (SICC) as Secretariat of the SICC committee.

Shaun serves on the Inquiry Panel of the Law Society of Singapore.

He is a panel arbitrator with the Singapore International Arbitration Centre (SIAC), and with premier international arbitration centres across Asia-Pacific:

- Shaun is the Head of the Academy of the Thailand Arbitration Centre (THAC), a premier international arbitration centre in the ASEAN region, and is also a panel arbitrator with the THAC.
- Arbitrator with the Court of Arbitration of the Blockchain Arbitration Society.
- Arbitrator with the Bali International Arbitration and Mediation Center.
- Arbitrator with the Center for International Investment and Commercial Arbitration, a key institution to resolve energy, infrastructure, and Belt & Road disputes.
- Arbitrator with the Tashkent International Arbitration Centre (TIAC).
- Arbitrator (仲裁人) with the BeiHai Asia International Arbitration Centre (北海亚洲国际仲裁中心)
- Arbitrator with the Bangalore International Mediation, Arbitration and Conciliation Centre.

Shaun is a member of the International Arbitration Institute Working Group on international arbitration rules, led by Yas Banifatemi and chaired by French Supreme Court Judge Dominique Hascher.

Shaun is a specialist mediator with the Singapore International Mediation Centre.

Shaun has substantial experience in crisis management including financial disputes. He advised investors in the FTX, Terraform Luna and Three Arrows Capital collapses, and is acting for over a hundred Singapore and foreign based investors in the Credit Suisse AT1 bond crisis in claims worth over SGD 200 million. His defining experience in crisis management was in his representation of a global healthcare company in a crisis management case in a North Asian country, where he was substantially engaged in all aspects of legal and strategic work around the case; including work on mass class action civil claims filed by victims, mediation, settlement and compensation, forensic investigations work in cooperation with Korean authorities, criminal defence work in relation to charged individuals, and strategic, legal advice regarding communications with media and political stakeholders. Shaun also helps organisations develop and implement effective crisis management programs during "peacetime" that are designed to cater for all sorts of unforeseen crises.
