6.30pm – 8.30pm

In partnership with design and consultation agency Thinking Loud & Clear ('TLC'), we invite you to join us for an exclusive panel discussion with industry experts who will be sharing their experiences of building a happy culture within the workplace.

A happy workforce is more collaborative, more innovative and more productive. A positive workplace culture creates an environment where people are more likely to stay in their job, and one that is more likely to attract the best talent. But how do you create a happy workforce? And what exactly is a happy workforce? Wellbeing programmes are dramatically increasing within the workplace and there is a growing body of evidence of the positive effect they are having.

In this panel discussion, we will explore how you identify the need, create, and manage a wellness programme, sharing insights and practical advice.

Speakers

- Christina Lewis, Head of People at global charity Restless Development
