

Art: Divorce and the division of assets

05 DECEMBER 2019

CATEGORY:
PODCAST

In this podcast, we look at how art can be divided during the divorce settlement process. Our host and art lawyer Diana Wierbicki talks to Sharon Ser and Jocelyn Tsao, divorce and family lawyers in Hong Kong, about how to divide art assets during a divorce settlement in high conflict situations. Since art collections can be a complex and significant marital asset, Sharon and Jocelyn discuss the benefits of documenting pieces upon acquisition, the issues of art valuation, and the value of an art expert in guiding a couple through the process.
